新兴电缆 NEWSUN CABLE
真芯每1米 安心每1刻

我们只做
高质量线缆

Safe and Reliable High-Quality Cable Product and Service Provider

Founded in 1982, Newsun Cable is a large-scale cable enterprise integrating R&D, production, sales, and service. It ranks among the Top 100 Cable Companies in China and Top 10 Cable Companies in Guangdong.

We remain steadfast in our commitment to producing only high-quality cables, dedicated to providing customers with reliable, safe, and environmentally friendly cable products and services.

Through our high-quality cables, we support national, economic development and empower the industry's transition toward environmentally sustainable, low-carbon growth.

Covering numerous application scenarios across 9 industry sectors

Clean Energy

Power grid

Construction and
Municipal
Engineering

Petrochemical

Steel, Metallurgy

40+

40+ Years focusing on the cable industry

15+

15+ Years continuously rated as a high-tech enterprise

15+

15+ Years continuously rated as an enterprise that honors contracts and maintains credibility.

8+

8+ Years continuously ranked among the Top 100 Most Competitive Chinese Cable Companies.

10+

10 Billion+ RMB annual enterprise production capacity

NO.1

First in the Industry to establish a 5G Smart Factory Demonstration Zone

300+

300+ Projects serving national key engineering projects

10000000+

10 Million+ Homes providing safe electricity assurance for household users

100000+

100,000+ Clients providing high-quality cables for engineering customers

追求卓越品质 打造高质量产品

R&D Capabilities

Every technological innovation is an exceptional pursuit of professional quality and secure transmission.

- CNAS Accredited Laboratory
- Irradiation Center
- Guangdong Province's Sole Flame Retardant and Fire-Resistant Power Cable Engineering Technology Research Center
- National-Level Professional Technical Inspection and Special Wire & Cable Engineering Technology Research Center

Authentic Core Constant Security

Professional Testing

Every step of testing prioritizes quality and safety, achieving peace-of-mind guardianship through excellent quality.

- **500+** High-Quality Control Standards and Testing Experiments

Newsun Cable has 3 labs (High-temperature Aging, Fire Resistance, Flame Retardancy) and enforces over 500 QC standards to deliver high-quality cables.

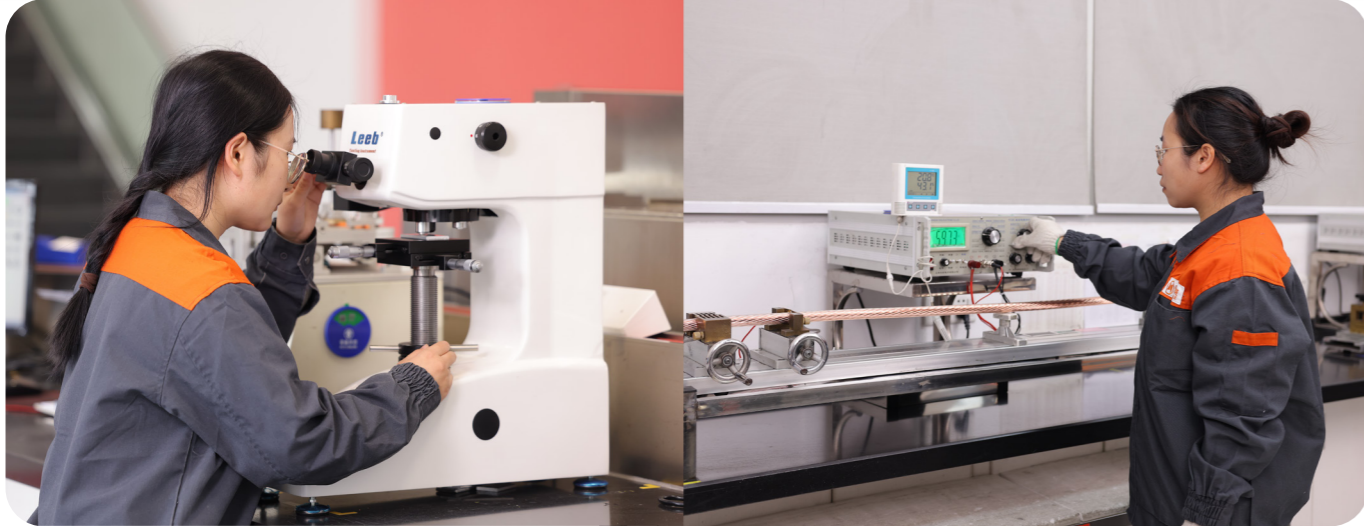

研 发 检 测 中 心

• 50+ Highly Efficient Testing Team

Newsun Cable has a 50+ testing team with professional equipment, enforcing strict cable regulations and 20°C ±1°C constant temperature for accurate test results.

• 80+ High-End Testing Devices

Newsun Cable has over 80 testing devices (e.g., KSM tester, aging chamber) that fully cover every stage of cable inspection, ensuring each product meets top quality standards.

- 100+ Annual production capacity of over 10 billion RMB Stranding Equipment

Advanced Equipment

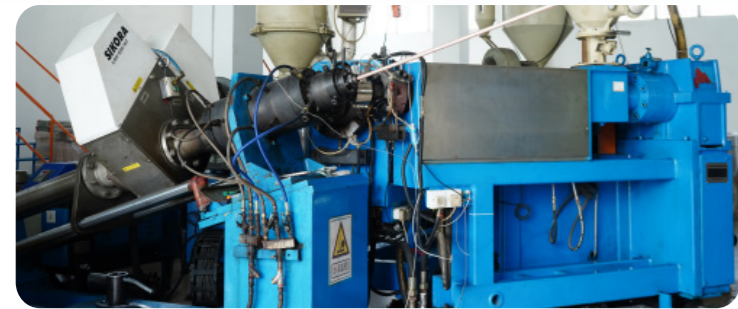

Every meter of cable is a commitment to reliable quality and masterful manufacturing.

- 400+ Advanced domestic and international production equipment and automated production lines

Project Case

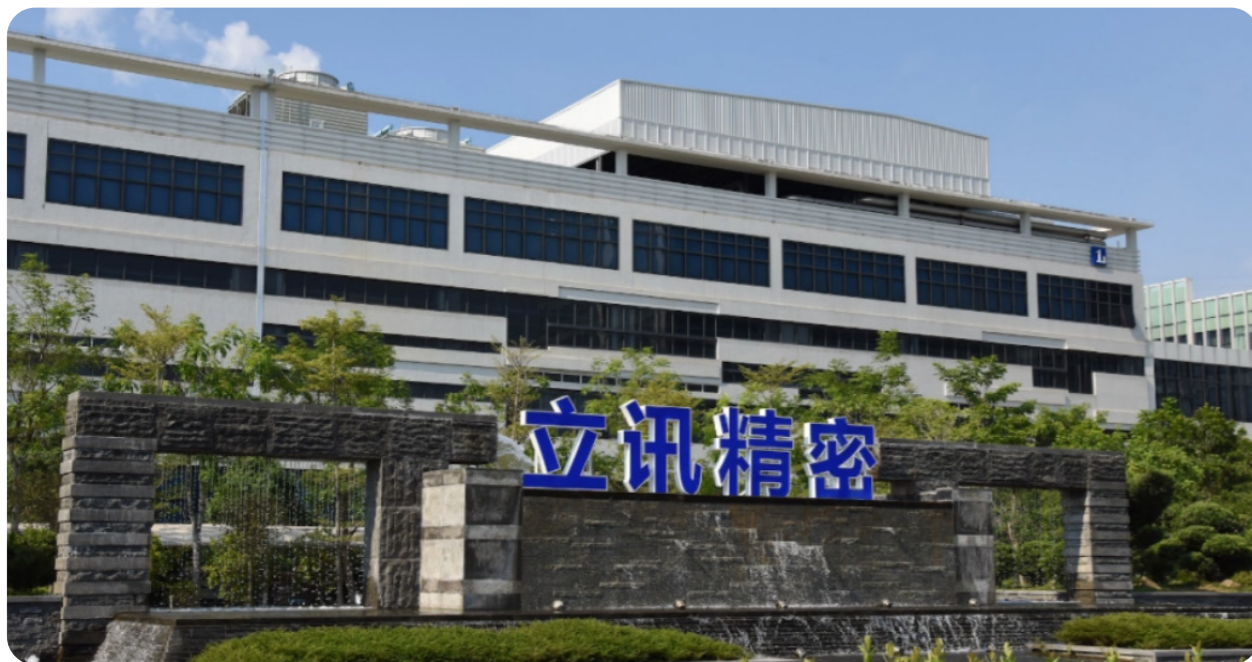

Saudi Arabia-Jazan Royal Commission

Newsun Cable supplied high-quality wiring and low-voltage cables to Jazan Royal Commission's seawater cooling project, ensuring reliable power and boosting project quality and reliability.

Kyrgyzstan

Newsun Cable supplied various cables to Dzungar's 800MW thermal power project, ensuring stable power operation and aiding local power industry and energy efficiency.

Luxshare Precision (Vietnam)

Newsun Cable provided tailored high-quality wiring and low-voltage cables for SMT racks, aiding Luxshare Precision's smart factory upgrade and meeting rising market demand.

BYD (Vietnam)

In 2023, BYD set up a facility in Vietnam. Newsun Cable provides solid power support for its local NEV base, aiding tech innovation, product iteration and market expansion

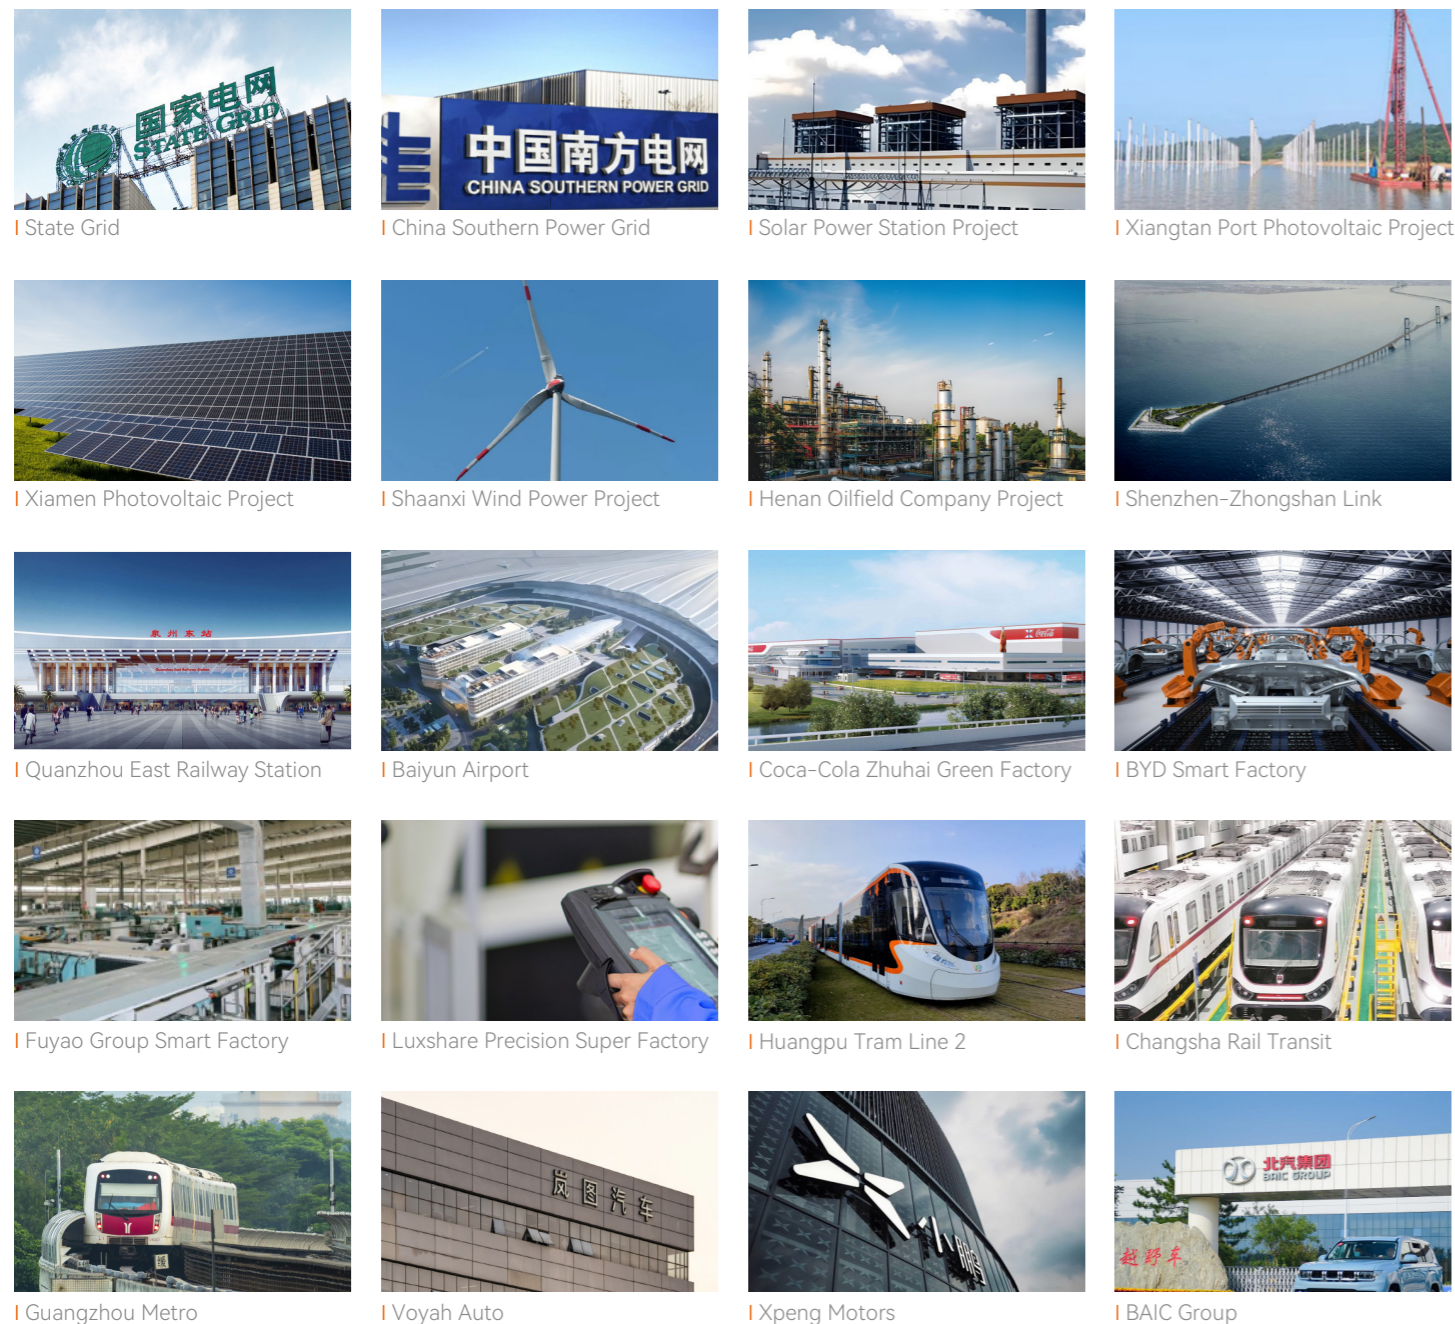

Ethiopia-Hilton Hotel

Newsun Cable provided high-performance wiring cables for Ethiopia's Hilton Hotel project, aiding its high-end construction and ensuring stable power with better quality and safety.

Applications

Over 300 national key projects

Over 300 national key projects (power grids, clean energy, rail transit, municipal construction) – Newsun Cable links key sectors, supporting major national projects with reliable power.

Customer Service

The common choice of 100,000 industry customers

Every cooperation is a transmission of trust;
Each compliment proves quality; customers' choice and recognition drive us forward.
